

PELICAN™

Catalogue 2026

**Quality products for elderly, disabled,
injured & recovering people & their carers**

About Us

Pelican Manufacturing was established in 1987 to provide pressure care items for geriatric patients in nursing homes and hospitals. Since then, we have grown and developed into Australia's premier nursing goods supplier, manufacturing a wide range of products.

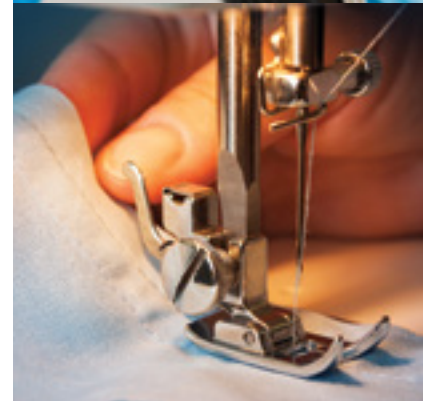

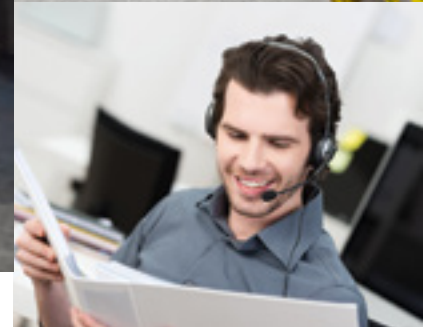

A fully Australian-owned and operated company, with our head office in Perth, Western Australia, Pelican not only operates right across Australia but also supplies facilities in the United States, Canada, England, Germany, Singapore, Japan, New Zealand, Dubai, and Saudi Arabia. In fact, we can send orders to almost anywhere in the world.

Our aim is to offer patients a high level of dignity, safety, and well-being, while also helping make carers' roles easier and safer. We maintain an extremely high level of quality in accordance with International Standard ISO 9001, and our patented items are internationally recognised.

Many items in the Pelican range have been developed following customers' suggestions or concerns regarding aspects of health care. Chances are, if you are having a particular problem in a certain area, other people are probably having the same problem. If you cannot see what you are looking for, please contact us to discuss your query.

**Registered
NDIS Provider**

Pelican is an NDIS Approved Provider
(Registration # 4050014543)

 - Full lifetime access
- Certificate of completion

udemy

Sling & Hoist Compatibility

The Therapeutic Goods Administration (TGA) states that any brand of sling can be used on any brand of hoist. Webbing loops must be used on a hoist that has lifting hooks. On a hoist with lifting studs, as on most tilt frame hoists, only keyhole plate clip slings can be used. Claims that only the hoist manufacturer's slings must be used on their hoist may be misleading and deemed a 'restrictive practice' and therefore unlawful under Australian law.
